**Tariff Adjustment**

The annual tariff adjustment formula is:

$$T_r = T_b \times \left[ 1 + \left( \frac{CPI_r - CPI_b}{CPI_b} \right) \right]$$

Where:

$T_r$  = relevant Service Charge, applicable from Review Date

$T_b$  = relevant base Service Charge in base year

$CPI$  = Consumer Price Index (All Groups weighted Average of Eight Capital Cities) published quarterly by the Australian Bureau of Statistics.

$CPI_r$  = CPI published for the December quarter immediately before relevant Review Date

$CPI_b$  = CPI published for the December quarter for the year prior to the base year

Review Date = Annually, 1 January each year.
